# VEGACON® 90

*Isolated Soy Protein – standard quality*

VEGACON® 90 is a soy protein isolate with excellent water and fat binding potential as well as high emulsifying and gelling properties. VEGACON® 90 is produced from guaranteed GMO-free and healthy soybeans. The beans are de-oiled first and the carbohydrates are extracted as second step. With the spray drying technology the natural protein, which is still dispersed in water, is dried to a light vegetable protein in powder form.

### Storage and shelf life

In the original packaging and unopened, VEGACON® 90 has a shelf life of 18 months when stored at a temperature of below 25 °C.

### Applicable regulations

VEGACON® 90 is a foodstuff. National laws and regulations must be observed.

VEGACON® 90 should be labelled as soy protein isolate.

### Packaging

Multi-ply paper sacks with a poly inner lining of 20 kg net on pallets of 600 kg, shrink wrapped.
